

## Dung Beetle Species List

*This species list was created via surveys in the South Pacific region of Costa Rica, including the Osa Peninsula, the Amistosa Biological Corridor and La Amistad International Park by monitoring of the Osa Conservation team and ID confirmed by entomologist Angelis Solis.*

### **Canthon**

*Canthon acutus*  
*Canthon aequinoctalis*  
*Canthon caelius*  
*Canthon humboldtii*  
*Canthon subhyalinus*

### **Deltochilum**

*Deltochilum pseudoparile*  
*Deltochilum gibbosum*

### **Onthophagus**

*Onthophagus acuminatus*  
*Onthophagus batesi*  
*Onthophagus coriaceoumbrosus*  
*Onthophagus coscineus*  
*Onthophagus dicranus*  
*Onthophagus marginicollis*  
*Onthophagus praescellens*  
*Onthophagus sharpi*

### **Eurysternus**

*Eurysternus caribaeus*  
*Eurysternus foedus*  
*Eurysternus mexicanus*  
*Eurysternus plebejus*

### **Pseudocanthon**

*Pseudocanthon perplexum*

### **Scybalocanthon**

*Scybalocanthon moniliatus*

### **Pedaridium**

*Pedaridium pilosum*

### **Canthidium**

*Canthidium aurifex*  
*Canthidium angusticeps*  
*Canthidium centrale*  
*Canthidium macroculare*  
*Canthidium haroldii*

### **Uroxys**

*Uroxys gorgon*  
*Uroxys sp T*  
*Uroxys sp U*

### **Dichotomius**

*Dichotomius amicitae*  
*Dichotomius satanas*

### **Coprophanaeus**

*Coprophanaeus pecki*  
*Coprophanaeus solisi*  
*Coprophanaeus telamon*

### **Sulcophanaeus**

*Sulcophanaeus noctis*
